Fresher

## Education

**Bachelor of Technology/Engineering - Computers**
2026

Port City International University, Bangladesh

Grade: 3.45 / 4

Dynamic Computer Science and Engineering graduate with a B.Sc. from Port City International University (2025),
specializing in network security, system administration, and Python automation. Proven expertise in vulnerability assessment using tools like Nmap, Wireshark, and Metasploit;
DNS enumeration with Sublist3r and Amass; and Active Directory management on Windows Server and Linux environments (Kali, BackBox).
Excelled in hands-on projects including a Pharmacy Management System built with PHP, HTML, and CSS, and comprehensive network security assessments.
Gained practical experience as an IT Intern, troubleshooting networks and enhancing Wi-Fi security with Aircrack-ng.
Certified in cybersecurity (Byte Capsule, Udemy courses) and pursuing CCNA,with strong skills in Bash scripting, ethical hacking, and remote collaboration.
 Fluent in English and Bangla, ready to drive secure, efficient IT solutions in fast-paced teams

- OWASP
- Security
